Lorem ipsum is a placeholder text (filler text) in publishing and graphic design. It is used to demonstrate the graphics elements of a document, such as font, typography, and layout.

The lorem ipsum text is usually a section of a Latin text by Cicero with words altered, added and removed to make it nonsensical.[1] Lorem ipsum text is used in mock-ups of visual design projects before the actual words are put into the finished product. This is often called greeking. The text is derived from Cicero's De finibus bonorum et malorum (On the Ends of Goods and Evils, sometimes the title is translated as [About] The Purposes of Good and Evil).

The text was frequently used in desktop publishing templates. To experiment with the text, it can be copy-pasted into the desktop publishing software, and the typeface and its setting can be tried out. The distribution of letters in Lorem Ipsum is close to that in English language. This way, you can see what your own text would look like in that graphic format.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Nunc maximus, Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum

Courses / Lifting with a trainer and how they help identify Joint Attention

#### **Course Description**

One of the first things all children learn to do is initiate interaction and socially reference people. Typically developing children frequently socially reference or check in with adults in the room. They do this for a number of reasons, a sense of security, gathering information about what is and isn't okay, securing someone's attention and more. You've already learned about initiating in the social loop lesson, one way people maintain connection is by socially referencing and making eye contact, it's also one of the primary way's in which children will initiate or re-initiate interaction. It's through initiating interaction and using social referencing that Joint Attention is born, this is where development really starts to take off! This course takes a look at how to use play to increase child initiated interaction, spontaneous social referencing and eye contact.

Referencing and Joint Attention
